BELLS FOR LAZY VOTERS.

Sleepers-Dunne, Democrat, Tipped to Beat Harlan, Republican.

(Special to The Evening World.) CHICAGO, April 4.—Municipal ownerof street railways is the real of it to the newspapers at once and to-day in the Chicago city elections, with the choice of immediate as well. ownership, as championed by the Dem-ecratic Mayoralty candidate, Judge Ed-with reference to the Building Departward F. Dunne, or "amicable settle-ment with the traction companies and of the commission and received its municipal ownership in the near fu-ture," as advanced by John Maynard Harlan, the Republican candidate. The betting favors Dunne 3 to 1, owing to the tramendous sentiment in Chicago favoring municipal ownership and to

favoring municipal ownership and to the complexities of the local Republican situation.

Showers, with a cold northwest wind, had some little offect on the voting early to-day, but later the balloting was brisk. The widespread interest in the election is bringing out the voters.

Democratic and Republican workers kept up a lively pace in the Twenty-first Ward, the home of both John M. Harlan and Mayor Harrison. The result there was said to be decidedly in doubt. Harrison in the last municipal election carried the ward, but Democratis conceded it would be hard for Dunne to poil as large a vote there. This was held to be particularly true in the fashionable Lake Shore Drive portion of the ward. "Hinkey Dink" Gets Them Out.

In the First Ward, usually controlled y the Democratic Alderman, Michael Cenna, familiarly known as "Hinky link," a novel method was utilized to et the lodging-house voters to the oils.

get the logging-house voters to the bolls.

Squads of men armed with bunches of cannon crackers were sent along the streets an dsoon there was a din sufficient to discount genuine artillery. The inmates of the logging houses were speedily organized into platoons of four and voted as rapidly as possible. The workers, however, seemed to be unusually cautious in marshalling this class of voters.

Bells for Lazy Voters.

A bell, such as used on cattle in the agricultural districts, was used to arouse sleepy voters in the Twenty-fourth Wari.

The bell was rung in hallways and when the voters appeared, they were told not to fosget to vote.

PROFESSOR A SUICIDE.

VIENNA, April 4.—Dr. Richard Hein-sel, Professor of Philology at the University here, committed suicide by shooting, at the University this morn-ing. The Professor's action is attrib-uted to ill health.

Why do work and worry and excess and strain and over-in-auguste bread down constitutions and make then and women worm out and run down and restless and sleepless and discouraged and morose? Because they westen the tiny, tender herves on which life itself depends.

Not the nerves you ordinarily think about for the nerves that govern your movements and your thoughts.

But the automatic nerves that, unguided and unknown, night and day, keep your heart in motion—control the digestive apparatus regulate your tiver—operate your kidneys.

These are the nerves that worry wears out se are the nerves that worry wears out

These are the nerves that worry wears out and work breaks down.

It does no good to treat the alling organ—the irregular heart—the disordered liver—the rebellious stomach—the deranged kidneys. They are not to blanie. But go back to the nerves that control them. There you will find the seat of the trouble.

It does no good to take stimulants and marcotics, for their, at best, is but a temporate the seat of the trouble.

There is nothing new about this—nathing any physician would dispute. But it mained for Dr. Shoop to amply this knowledge—to put it to practical use. Dr. Shoop's Remorative is the result of a querier of a century of endeavor along this very line. It does not dose the organ to deaden the pain—but it does go at once to the nerve—the inside nerve—the power nerve—and builds it up, and strengthens it and makes it well. That is the end of all vital troubles. That is the end of all vital troubles. That is the end of mervements and restless days. That is the end of "mervousness," the end of brain fag and fatigue.

Our buyer on his last trip abroad visited the Hosiery manufactur-district in Germany and contracted for a very large quantity of this Hosiery-for one particular purpose:-

Women had complained that the average 25c. Hosiery for children was not as good as it ought to be at that price—yet it was—and continues to be—as good as domestic manufacturers can produce. The German Hosiery—made differently—is very much better than the American-made—but when the middlemen got their profit out of it the price had to be around 40c. a pair. As a general rule it sold at
